

Earth & Space

Five Cue Cards

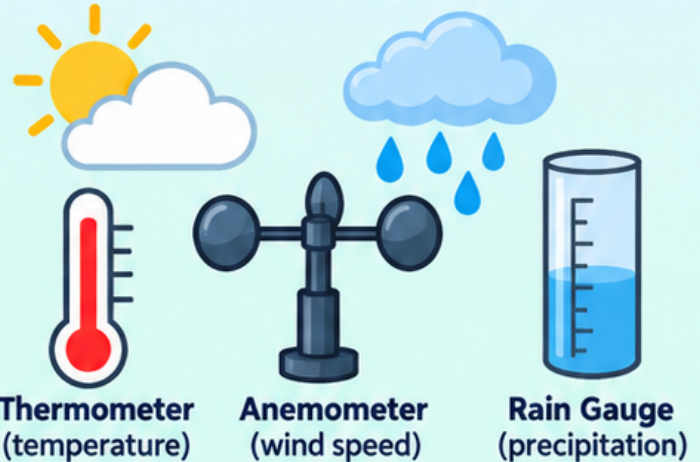

Big ideas about our planet and beyond!

1 The Water Cycle

Water moves between Earth's surface, oceans, and the atmosphere.

2 Weather & Weather Tools

Weather is the short-term condition of the atmosphere, and we can measure it with tools.

3 Rocks, Soil & Fossils

Rocks, soil, and fossils tell us about Earth's past.

4 Changing Earth's Surface

Wind, water, ice, and living things can change Earth's surface over time.

5 Objects in the Sky

(Day/Night, Moon, Solar System)

The Sun, Moon, stars, and planets are part of our amazing universe.

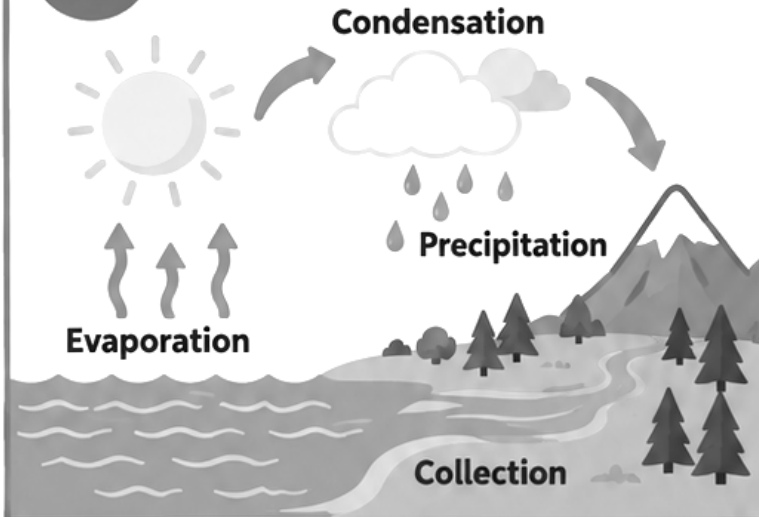

Key Idea: Earth is a dynamic place, and it is part of a larger universe!
