

Matter & Energy

> Five Cue Cards <

Big Ideas for a More Curious You!

1 Physical Properties

Matter has properties you can observe, measure, or test.

2 States of Matter

Solid

Liquid

Gas

Matter can be a solid, liquid, or gas.

3 Measuring Matter

You can measure matter's mass and volume.

4 Mixtures & Solutions

Matter can be mixed together, and some materials can dissolve to make a solution.

5 Changes to Matter

Matter can change in different ways, but it is still matter.

Key Idea:

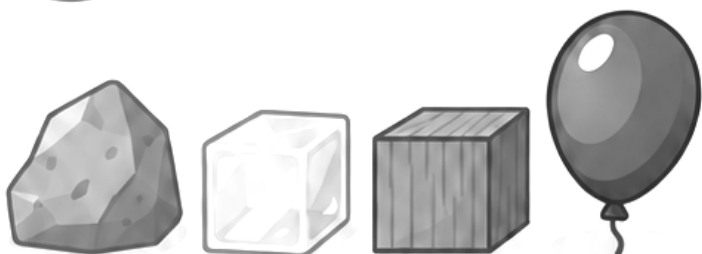

Matter can change, and energy can make it happen!
