

Net Force

..... Find the Overall Push or Pull.

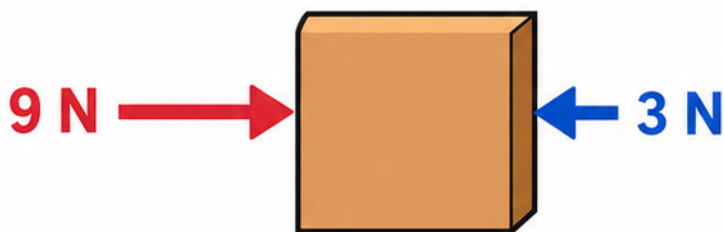

Add forces in the same direction. Subtract forces in opposite directions.

1 SAME DIRECTION

$$4 \text{ N} + 6 \text{ N} = 10 \text{ N right}$$

2 OPPOSITE DIRECTIONS

$$9 \text{ N} - 3 \text{ N} = 6 \text{ N right}$$

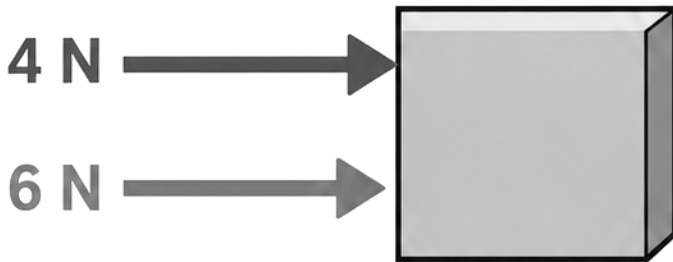

Net force is the overall force after combining all pushes and pulls.

Net Force

..... Find the Overall Push or Pull.

Add forces in the same direction. Subtract forces in opposite directions.

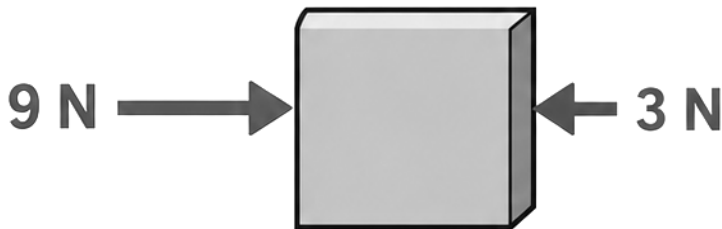

1 SAME DIRECTION

→

$$4\text{ N} + 6\text{ N} = 10\text{ N right}$$

2 OPPOSITE DIRECTIONS

↔

$$9\text{ N} - 3\text{ N} = 6\text{ N right}$$

Net force is the overall force after combining all pushes and pulls.
