

Station 6: Particle Detective

Name _____ Date _____ Class _____

? Focus Question

What do particle models reveal about phase change?

Materials

station notes, pencil, this sheet

Procedure

1. Choose two phase change stations.
2. Review your observations from each station.
3. Draw a before model and an after model for each one.
4. Label the phase change.
5. Explain how particle motion and spacing changed.

Record Your Data

Station	Before Model	After Model	What Changed?
A			
B			

Explain It

1. How are particles arranged in solids, liquids, and gases? _____
2. Which station showed particles gaining energy? _____
3. Which station showed particles losing energy? _____

Safety

Use only your own station notes and work carefully.

Use labeled particle models and complete sentences.
