Division splits a total into equal groups.

Division

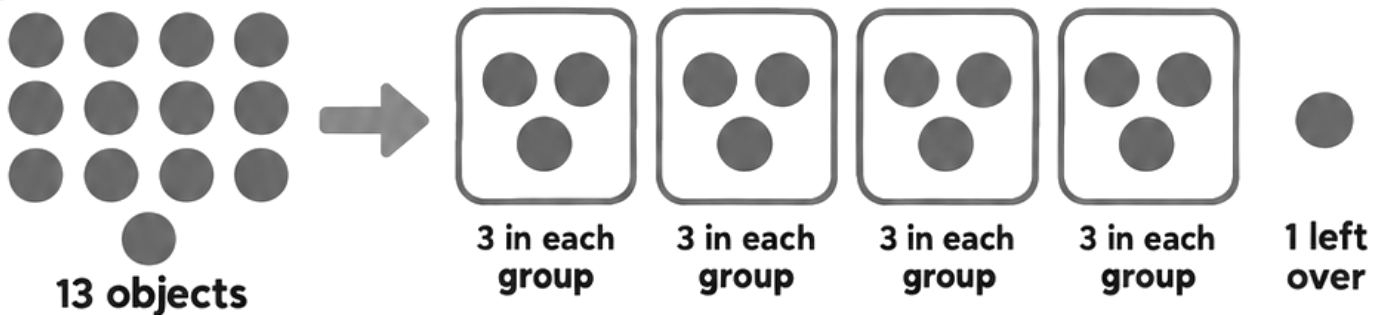

Sharing into equal groups

1 Share 12 into 3 equal groups.

$$\begin{array}{ccccccc} 12 & \div & 3 & = & 4 \\ \text{dividend} & & \text{divisor} & & \text{quotient} \end{array}$$

2 Share 13 into 4 equal groups.

$$\begin{array}{ccccccc} 13 & \div & 4 & = & 3 & R1 \\ \text{dividend} & & \text{divisor} & & \text{quotient} & \text{remainder} \end{array}$$

Division splits a total into equal groups.
