

Food Chains and Food Webs

How Energy Flows

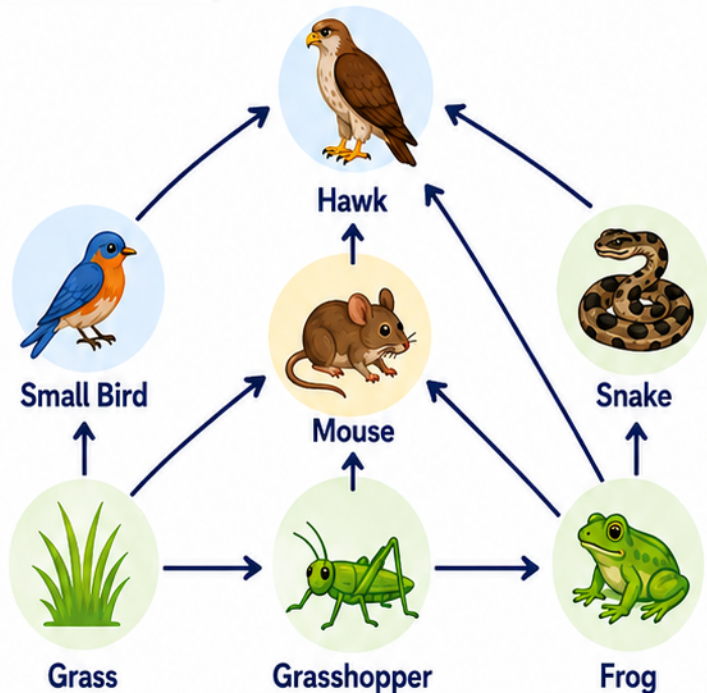

Food Chain

A food chain shows a single path of energy.

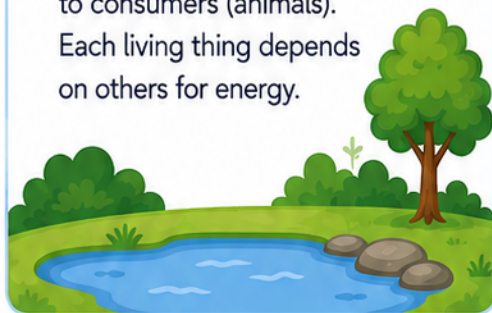

Food Web

Many food chains connect in a food web.

Food webs show how many food chains connect.

Energy flows from the Sun through producers (plants) to consumers (animals). Each living thing depends on others for energy.

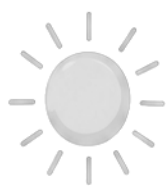

Food Chains and Food Webs

How Energy Flows

Food Chain

A food chain shows a single path of energy.

Sun

The Sun is the ultimate source of energy.

Grass

Plants use sunlight to make their own food.

Grasshopper

The grasshopper eats the grass.

Frog

The frog eats the grasshopper.

Snake

The snake eats the frog.

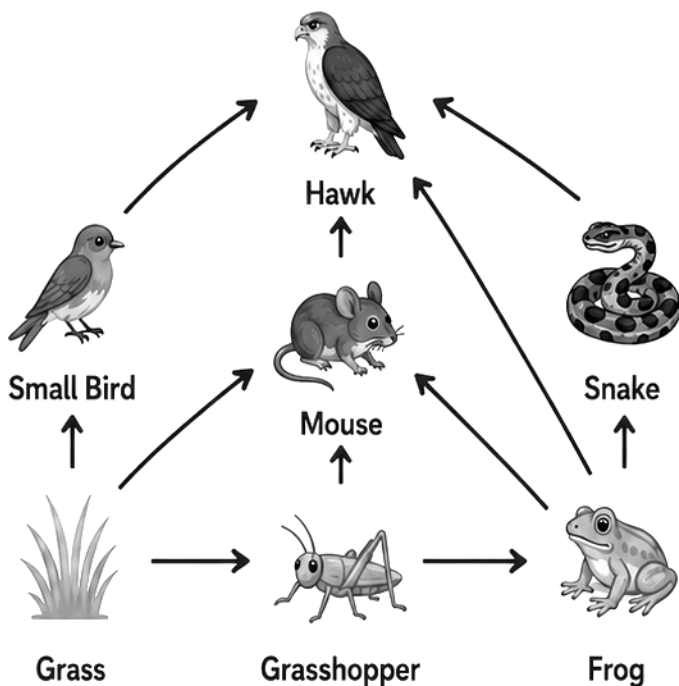

Hawk

The hawk eats the snake.

Food Web

Many food chains connect in a food web.

Food webs show how many food chains connect.

Energy flows from the Sun through producers (plants) to consumers (animals). Each living thing depends on others for energy.
